August 21, 2009
The Honourable Rich Coleman,
Minister of Housing and Social Development:

On behalf of all of the employees of the Liquor Distribution Branch (LDB), I am pleased to present this update to our service plan for fiscal years 2009/10 to 2011/12.

This plan supports our mission to be a customer-focused, profitable retailer and wholesaler of beverage alcohol dedicated to innovation, exemplary service, helpful product knowledge and corporate responsibility.

Over the three years covered by this plan, the LDB estimates it will generate \$2.88 billion in net income to government. In addition to our financial performance, the LDB's high-level goals also include workplace quality and employee excellence, customer experience, business effectiveness and corporate responsibility.

This year, we concluded an Enterprise Risk Assessment to further strengthen our Business Continuity and Risk Management planning. Additionally, we solidified our workforce plan to address our succession management process, and were honoured to be recognized as one of British Columbia's Top 50 Employers for 2009 by Maclean's Magazine. These factors help to ensure that we have measures in place to deal with any challenges that come our way.

The LDB has also developed a comprehensive Green Plan to support our environmental initiatives, and we are exploring leading edge energy reduction programs in all areas – corporate, distribution and retail. Over the last year, many positive environmental programs have been initiated, including our Think Green Shop Smart in-store awareness campaign. I am pleased to report that we have seen a 17.8 per cent reduction in single-bag use over the past fiscal year.

As a result of the recent downturn in the world economy, the LDB will be closely monitoring its sales and expenses. The LDB will also collaborate with its industry partners to identify opportunities and challenges as we move through these uncertain times.

The 2009/10 - 2011/12 British Columbia Liquor Distribution Branch Service Plan Update was prepared under my direction in accordance with the *Budget Transparency and Accountability Act*. The plan is consistent with government's strategic priorities. I am accountable for the contents of the plan, including the selection of performance measures and targets.

All significant assumptions, policy decisions and identified risks, as of August 2009, have been considered in preparing the plan. The performance measures presented are consistent with the LDB's mandate and goals, and focus on aspects critical to the organization's performance. The performance targets in this plan have been determined based on an assessment of the LDB's operating environment, forecast conditions, risk assessment and past performance.

GOVERNANCE

Reporting to the Minister of Housing and Social Development, the LDB is responsible for the importation, distribution, wholesaling and retailing of beverage alcohol in British Columbia.

The LDB follows Crown Agencies Secretariat guidelines for service plans and annual reports, and is reported out in public accounts in a manner similar to a commercial Crown corporation, on a modified equity basis.

Under the authority of the *Liquor Distribution Act*, the LDB has the sole right to purchase beverage alcohol, both inside and outside of British Columbia, in accordance with the *Importation of Intoxicating Liquors Act (Canada)*.

The *Liquor Distribution Act* specifies that the minister must appoint a general manager and that the general manager is responsible for administering the Act, including the general control, management and supervision of liquor stores, subject to the orders, directions and supervision of the minister. The Act further clarifies the powers of the general manager and delineates the administration of the LDB and the operation of its retail liquor stores.

The LDB is also responsible for the appointment of rural agency stores.

Another branch within the Ministry of Housing and Social Development, the Liquor Control and Licensing Branch (LCLB), enforces the *Liquor Control and Licensing Act*. The LCLB is responsible for the licensing, monitoring and enforcement of the Act and regulations related to private liquor stores, restaurants, pubs and manufacturers.

SHAREHOLDER'S LETTER OF EXPECTATIONS

A key component of the LDB's governance framework is the Shareholder's Letter of Expectations, an agreement between the minister on behalf of government, and the general manager of the LDB. This document establishes the LDB's mandate and identifies government's strategic priorities and performance expectations for the LDB.

Selected direction from Government is shown below. The full document is available on the LDB's website at: http://www.bclddb.com/pdf/2009_SLE.pdf.

GOVERNMENT DIRECTION

- Inform the Shareholder on a regular basis of any major changes occurring or likely to occur in the beverage alcohol market, or within the LDB itself, that may impact on the LDB's achievement of its Service Plan targets either negatively or positively.
- Implement financial reporting that clearly segregates retail and distribution operations to enable transparent disclosure of costs at the retail and wholesale levels.
- Comply with the Shareholder's and the LCLB's direction to rationalize and improve the regulatory framework for the importation, distribution and retailing of beverage alcohol products in British Columbia.
- Comply with the Shareholder's and LCLB's direction to deliver corporate responsibility programs and service delivery rules and regulations.

BUSINESS OF THE LIQUOR DISTRIBUTION BRANCH

The LDB operates a province-wide beverage alcohol retail and distribution business within a mixed public-private model.

With a workforce of approximately 3,500 full-time and part-time employees, the LDB, as of August 2009 operates:

- 197 government liquor stores throughout the province;
- two distribution centres, in Vancouver and Kamloops; and
- a head office facility in Vancouver.

The LDB purchases beverage alcohol from over 400 suppliers and manufacturers in British Columbia, across Canada and around the world. Licensed manufacturing sites in British Columbia include 163 wineries, 52 breweries and brew pubs, and 14 distilleries.

As of July 2009, private-sector retail establishments in British Columbia included:

- 674 Licensee Retail Stores (LRSs - private retail liquor stores licensed to sell all liquor products);
- 224 Rural Agency Stores (RASs - general merchandise stores in rural communities authorized to sell all liquor products);
- 206 on-site manufacturer stores (retail stores at wineries, breweries and distilleries that sell alcoholic products manufactured on-site);
- 35 off-site manufacturer stores (retail stores operated by the British Columbia wine industry that sell British Columbia winery products);
- 12 independent wine stores (private retail stores authorized to sell all types of wine); and
- 11 duty-free stores.

PLANNING CONTEXT

Improvements in information and technology systems have an ongoing impact on the LDB's ability to deliver leading-edge customer service to both retail and wholesale customers. Improvements in data management and gathering continue to provide increased opportunities for the LDB to gain operational efficiencies, identify and address illicit activity, identify retail trends and upgrade merchandising strategies.

As a part of this process, a LDB Wholesale website – www.ldbwholesale.com – was launched in 2008/09 and piloted an online ordering system with 70 wholesale customers, processing 900 orders worth \$10 million in retail sales. The online ordering system was developed in conjunction with the government-wide One Stop/ Identity Management and User Provisioning (IdM) project to ensure secure, effective and efficient access for our customers.

Technological advancements assist the LDB to manage the risks associated with Business Continuity and Disaster Recovery. Last year, the LDB conducted an Enterprise Risk Assessment which included an assessment of our ability to respond appropriately in the event of an emergency or disaster. As a result, the decision was made to establish a second data centre at the Kamloops Distribution Centre. The new data centre will have more reliable infrastructure, facilitating a reduction in infrastructure-related outages, and enabling disaster recovery solutions. Both sites will serve as disaster recovery sites for each other.

The LDB has developed a *Green Plan* that identifies and tracks more than 50 sustainable/environmental initiatives to reduce our carbon footprint. In addition, we established a Climate Action Team – representing all core operational areas of the LDB – to support greenhouse gas reduction goals and act as Green Team leaders in their operational areas. Some key initiatives include: a Power Smart energy audit of all facilities to reduce energy requirements and costs; reviewing recycling practices to maximize material recovery and reduce costs; *Think Green, Shop Smart* marketing programs to heighten awareness among LDB employees and customers; and the *Best Bag is No Bag at All* in-store program, which has reduced single-bag use by 17.8 per cent over the last fiscal year.

The LDB has historically had a low employee turnover rate, which has resulted in the organization retaining a large group of experienced, long-term employees, many of which are nearing retirement age. To address the challenges associated with an aging workforce, succession plans have been developed to assist the LDB in identifying and securing the skills and competencies required to deliver on its business strategies. The LDB was proud to be selected as one of British Columbia's Top 50 Employers for 2009 by Maclean's Magazine.

KEY STRATEGIC ISSUES

Wholesale

The LDB processes more than 11 million cases of beverage alcohol annually through its two Distribution Centres in Vancouver and Kamloops – 40 to 50 thousand cases a day through the Vancouver Distribution Centre alone. The LDB has \$1.6 billion sales to wholesale customers. Of this, \$424.5 million is done through its wholesale facilities in Vancouver, Victoria and Kamloops.

As part of the plan to continue to improve services to our increasing wholesale customer base, the LDB began piloting a new web-based ordering system.

Retail

British Columbia Liquor Stores average over 700,000 customer transactions each week, making the LDB one of the province's largest retail organizations.

Some areas of continuing customer service focus include: featuring British Columbia Vintners Quality Alliance (VQA) Wines at all retail stores; operating an on-site store during the Fall Okanagan Wine Festival and the

Vancouver Playhouse International Wine Festival; offering a broad selection of both international and domestic products in all BC Liquor Stores; working with consulates and trade organizations to support their marketing efforts through store displays, trade events and in-store tastings; continually updating and developing the LDB website; offering gift card options; and continuing the publication of the LDB's award-winning in-store magazine, TASTE.

Corporate Responsibility

The LDB includes corporate responsibility as a part of its daily operations. Throughout the year, the LDB sponsors or participates in a number of awareness programs and initiatives that further its public safety goal by promoting the responsible use of alcohol in its retail stores. These include:

- Monthly responsible consumption of alcohol messages in stores
- Just Checking! 2-ID
- Support Dry Grad
- Get Home Safe

These programs address major areas considered to present risk, including alcohol and pregnancy, drinking and driving, and over-consumption. The LDB's responsible-use initiatives continue to maintain high levels of recognition and respect from the public, employees, suppliers and other liquor jurisdictions and agencies.

Support Dry Grad

Since 2001, the LDB's annual Support Dry Grad campaign has raised in excess of \$2.8 million for alcohol-free high school graduation events. Customers of BC Liquor Stores are encouraged to donate one dollar or more to support dry graduation celebrations in their communities, and \$594,517 was raised in 2009.

Share a Bear

Since 1989, BC Liquor Stores have offered plush bears for sale to customers in November and December. For every bear purchased by a customer, its "twin" is donated to a children's charity. Program success is driven by the stores, with individual stores selecting local charities to support. Beneficiaries include Christmas stocking funds, police and ambulance services, hospitals and other community charities. In 2008, 30,500 bears were sold.

Provincial Employees Community Services Fund (PECSF) Campaign

The Community Fund is a fundraising campaign supported voluntarily by employees throughout the provincial government. Proceeds are raised through employee contributions and special fundraising events, with 100 per cent of the money raised going to a variety of British Columbia charities. LDB employees donated more than \$207,000 in 2008, a 28 per cent increase over the previous year.

24 Hour Relay for the Kids

Every June since 1995, members of the LDB Beer-O-Crats team have laced up their sneakers to raise funds for the 24 Hour Relay for the Kids. Funds are raised for the Lions Society's three Easter Seal Camps, specially equipped for children with disabilities. In 2008, the Beer-O-Crats raised more than \$11,700, and has raised more than \$100,000 since joining the event.

RISK FACTORS AND SENSITIVITIES

MITIGATING STRATEGIES

INFORMATION TECHNOLOGY

The upgrading of information systems is key in the delivery of efficient and effective services to LDB's retail and wholesale customers. The replacement of older, difficult to maintain systems with new systems creates challenges in integrating applications and ensuring accurate information.

The LDB is replacing older systems on a scheduled basis and is working to improve the integration of new systems.

PAYMENT CARD INDUSTRY COMPLIANCE

In order for the LDB to provide credit card service in BC Liquor Stores, it must comply with the new Payment Card Industry (PCI) Data Security Standard.

The LDB is in the process of developing and implementing a compliance plan that coordinates with the government-wide efforts currently underway.

RECRUITING AND RETENTION OF SKILLED EMPLOYEES

The LDB and many other organizations are expecting greater difficulties in staffing key positions due to increased retirements and a competitive job market.

The LDB has increased its succession planning efforts in order to recruit skilled employees from outside the organization and to support the career development of employees within the organization.

The LDB Executive Management Committee meets monthly to discuss service plan performance, risks and mitigating strategies.

In view of the uncertainty of the economic climate, the LDB will be more closely monitoring its financial performance by comparison to previous year and budget in order to ensure that actions are taken to mitigate any risk as soon as possible.

The LDB completed an Enterwise Wide Risk Assessment and identified the key risks which are being addressed. The LDB currently has a number of projects in progress to address the business and technology risks. These include the Financial Business Improvement Project, the Payment Card Industry Data Security Standards (PCIDSS) Compliance Program, Goods and Services Tax Project and the conversion to International Financial Reporting Standards. The PCIDSS project is being conducted jointly with the provincial government program.

THE FOUR PILLARS FRAMEWORK

The LDB has organized its strategic priorities and key objectives around the concept of four pillars. Overarching these four pillars is the financial performance goal, and supporting them are the LDB's dedicated employees.

This measure is an indicator of the LDB's efforts to improve service to wholesale customers and will identify key opportunities for improvement.

Significant Changes From The Service Plan For Fiscal Years 2008/09-2010/11

The measure "Average retail customer transaction value" has been moved to the Benchmark section of the Plan.

GOAL

4

BUSINESS EFFECTIVENESS

Maintain operating efficiencies in a climate of constant change.

STRATEGIES: 1. Maximize the potential efficiencies available through improved distribution operations

4.2 Distribution centre labour cost per case shipped – Total distribution centre labour expenses divided by total distribution centre case shipments. This measure is an indicator of distribution centre labour productivity.

4.3 Distribution centre line fill rate – A measure of the completeness of orders filled by LDB distribution centres. The measure is calculated by dividing the number of order lines (SKUs) filled completely by the total number of order lines placed by LDB stores and wholesale customers. The calculation excludes products that are not stocked by LDB distribution centres.

Significant Changes From The Service Plan For Fiscal Years 2008/09–2010/11

The measure “Distribution centre accuracy rate” has been adjusted to “Line Fill Rate” to reflect industry standards.

Significant Changes From The Service Plan For Fiscal Years 2009/2010–2011/12 Issued In February 2009

* The targeted sales per square foot have been modified to reflect the increase in budgeted total sales made to incorporate the implementation of the Harmonized Sales Tax (HST) in July 2010.

GOAL

5

CORPORATE RESPONSIBILITY

Encourage the responsible use of beverage alcohol.

STRATEGIES:

1. Prevent sales to minors or intoxicated persons in BC Liquor Stores through increased staff education and enforcement of ID-checking requirements
2. Promote awareness of responsible use by continuing co-operative programs with suppliers and other stakeholders

PERFORMANCE MEASURES	ACTUAL	TARGETS		
	Fiscal 2008-09	Fiscal 2009-10	Fiscal 2010-11	Fiscal 2011-12
5.1 Store compliance with ID-checking requirement	56%*	100%	100%	100%
5.2 Customer awareness of LDB corporate responsibility programs**	88%	N/A	90%	N/A

* British Columbia Liquor Stores staff are 74% compliant in requesting one piece of ID, however, the requirement for two pieces of ID has been adhered to less strictly. The LDB has an education program in place to assist staff and is working towards achieving this goal.

** In order to allow customers sufficient time to experience and assess LDB service improvement initiatives, surveys are conducted once every two years.

Performance Measure Descriptions

5.1 Store compliance with ID-checking requirement – Compliance is measured by dividing the number of violations to the ID-checking requirement by the number of times compliance is checked. The Liquor Control and Licensing Branch checks GLS compliance with ID-checking requirements. A sample of GLSs is checked at least once per year.

5.2 Customer awareness of LDB corporate responsibility programs – The degree to which LDB store customers are aware of the LDB's corporate responsibility programs. This measure is determined by customer surveys conducted every two years.

Significant Changes From The Service Plan For Fiscal Years 2008/09-2010/11

The measure "In-store responsible-use beverage alcohol programs" has been deleted from this goal as the "Customer awareness of LDB corporate responsibility programs" measure is already reflective of objective.

The following information summarizes the source and accuracy of the data used for the service plan performance measures.

Sales Data (Performance Measures 1.1 and 4.3):

Sales data for government liquor stores (GLSs) is collected from computerized point-of-sale cash register systems and stored in head office databases. Sales made directly to customers by agents on behalf of the Liquor Distribution Branch (LDB) are transmitted to the LDB and stored in databases. LDB financial statements are audited by the Office of the Auditor General annually.

Expense Data: (Performance Measures 1.1 and 4.2):

LDB expense data is captured, stored and reported by the LDB's financial system. The LDB's financial statements are audited by the Office of the Auditor General annually.

Employee And Customer Surveys (Performance Measures 2.1, 3.1, 3.2, 5.2):

The LDB contracts with professional survey agencies to ensure that survey results are statistically valid.

ID-Checking (Performance Measure 5.1):

The Liquor Control and Licensing Branch checks GLS compliance with ID-checking requirements. A sample of GLSs is checked at least once per year and the results are provided to the LDB.

The LDB benchmarks itself with three other provinces: Alberta, Manitoba and Ontario. Although other provincial liquor authorities have many similarities with the LDB, there are important differences that impact the comparability of certain statistics. For example, in Ontario most beer is sold through a private Brewers Retail system, which results in lower sales per square foot for government stores in that province when compared to the LDB, which sells a large amount of beer through its stores.

Average Retail Customer Transaction Value

Gross LDB store sales to retail customers divided by the number of retail customer transactions. This measure is an indicator of the LDB's success in improving the customer's retail shopping experience compared to other provincial government stores.

Per Capita Net Income of Beverage Alcohol

This measure shows how the British Columbia liquor system compares to other provinces from the perspective of generating government revenue.

Government Liquor Store (GLS) Operating Expenses as a Percentage of Store Sales

This measure is an indicator of LDB store efficiency as compared to other provincial government stores.

Sales Per Square Foot (retail and wholesale)

This is another indicator of the efficiency of the LDB's store system.

Benchmarking – Fiscal 2007/08

	British Columbia	Alberta	Manitoba	Ontario
Average Retail Customer Transaction Value	\$30.22	N/A	\$35.79	\$37.32

Public Sector Work Environment Benchmark

The LDB participated in the 2008 Work Environment Survey. The survey looked at what workplace experiences matter most to employees and serves as a tool for developing actions that could lead to beneficial changes to employee engagement within the LDB. The survey was based on the British Columbia Public Service Work Environment Survey and the results were compared to the results for the British Columbia Public Service overall.

Segmented Financial Outlook

The LDB has two distinct operations – retail and wholesale. The retail operations cover all counter sales in GLSs and wholesale operations represent all other sales. An Activity-Based Costing Analysis between the retail and wholesale operations, which allocates expenses between the two operations, was done based on activities in fiscal 2007/08. This analysis will be updated each year based on the previous fiscal year's activity. The segmented information provided below allocates the Summary Financial Outlook from the previous page into the retail and wholesale streams.
