INTRODUCTION TO THE ESTIMATES

The main Estimates for each fiscal year are presented to the Legislative Assembly by the Minister of Finance. The contents of the main Estimates are outlined in section 5 of the *Budget Transparency and Accountability Act* and the timing of their presentation is outlined in section 6.

The main Estimates serve two purposes:

For the broader government reporting entity, which includes the Consolidated Revenue Fund (CRF) as well as Crown corporations and service delivery agencies that are controlled by the government, the main Estimates provide an overview of government's fiscal plan for 2026/27. This includes forecasts of staff utilization and the projected financial results of the larger service delivery agencies. The Estimates also include restated main Estimates and updated forecast information for the 2025/26 fiscal year for comparative purposes.

For core government (CRF), the Estimates form the basis for annual appropriations approved by the Legislature for both operating and financing transactions upon the enactment of a *Supply Act*.

The General Fund is the main operating fund within the CRF and includes a number of Special Accounts where the statutory authority for expenditures is derived from statutes other than a *Supply Act*.

The BC Prosperity Fund is a special fund whose general purpose is to set aside portions of government's annual surplus as a long-term legacy intended to help eliminate taxpayer-supported debt of the government reporting entity over time; improves the cost of living for families; makes investments in health care, education, transportation, and other priorities; and provides a permanent legacy endowment that provides future benefits to British Columbia. The BC Prosperity Fund will earn and retain investment earnings to be used for these purposes.

All expenditures from the CRF must be authorized by an appropriation, either through a *Supply Act* or through a specific provision in another statute. The Votes in the Estimates are the details of that year's appropriations for each special office, ministry, and other purpose. The vote descriptions provide the framework for legislative control of government spending, since funds can only be expended for purposes stated in the Estimates. Special types of appropriation for capital expenditures, loans and advances, and dedicated revenue (financing transactions) are voted on a total amount basis, although the Estimates do provide allocations by ministry for disclosure purposes.

Legislative authority for voted appropriations is provided by the *Supply Act*, which includes a summary of the Estimates appropriations as schedules to the Act. Expenses cannot exceed individual Vote totals without additional legislative authority. Expenses from Special Accounts are also disclosed in the Estimates; however, they are not included in *Supply Act* totals as these accounts have separate statutory spending authority.

The allocation of voted and statutory appropriation to standard objects of expense (STOB) is disclosed in the Supplement to the Estimates. While section 23(4) of the *Financial Administration Act* authorizes the spending of an appropriation on any activity or STOB, this more detailed presentation provides additional information and establishes a framework for administrative control by Treasury Board. The Supplement to the Estimates can be found on the Government of British Columbia's budget website at <https://www.bcbudget.gov.bc.ca/>.

The 2026/27 Estimates are composed of three separate sections:

1. **Summary Information** — This section presents an outline of the accounting policies on which the Estimates have been prepared and significant presentation changes in the Estimates from the previous year. This section also provides information on the projected results of the broader government reporting entity, including a statement of financial position; a statement of operations; a reconciliation of the projected surplus (deficit) to the forecast change in debt; details on the components of forecast revenue and expense; and a summary of estimated General Fund appropriations.
2. **Estimates of Special Offices, Ministries and Other Appropriations** — This section presents the details of the appropriations from the General Fund arranged by special office, ministry, or other grouping (such as Other Appropriations). The details in the Estimates include breakdowns by core businesses and group account classification.

Each special office, ministry, or other grouping is presented on a similar basis.

1. Summary — summarizes total voted and statutory expense, capital, and other financing transactions.
2. Summary by Core Business — for ministries, discloses operating expenses, capital expenditures, and other financing transactions by core business on both a gross (before deducting estimated external recoveries) and net (after deducting estimated external recoveries) basis. A core business includes programs and/or functions grouped together based on common roles and/or purposes. For special offices and other groupings, these items are disclosed by vote.
3. Vote and Statutory Appropriations Descriptions — for ministries, includes a description of the purpose for each vote and operating expenses for both voted and statutory appropriations broken down by core business. For special offices and other groupings, these items are disclosed by vote.
4. Special Accounts — discloses revenue, expense, capital, other financing transactions, and projected spending authority available for all special accounts.
5. Financing Transactions — discloses financing transactions that are the responsibility of the special office or ministry, including loans, investments and other requirements by core business and revenue collected for, and transferred to, other entities by core business.

3. **Schedules** — This section consists of supporting schedules that include the following: a reconciliation of the 2025/26 main Estimates to the restated 2025/26 main Estimates; a summary of operating and financial requirements and opening and closing balances for all Special Accounts; a summary of financing transactions for capital expenditures; a summary of financing transactions for loans, investments and other requirements; a summary of financing transactions for revenue collected for, and transferred to, other entities; a summary of ministerial accountability for voted operating expenses; an estimated CRF operating result, including segmented results for both the General Fund and the BC Prosperity Fund; a summary of major service delivery agency revenues and expenses; and an estimate of the staff utilization for the taxpayer-supported government reporting entity.

EXPLANATORY NOTES

The Relationship Between Net Expense and Spending Authority

Consolidated Revenue Fund (CRF) expense budgets are established based on the gross amount of funds required for a particular purpose, with anticipated recoveries being deducted to arrive at the net expense. It is the net expense that is included in an annual *Supply Act* and voted on by the Legislative Assembly.

Section 23(3) of the *Financial Administration Act* (FAA) provides that where a vote in the Estimates approved by the Legislature shows an item as a credit or recovery, the vote is deemed to appropriate spending authority for the net expense plus the estimated amount of the credit or recovery, whether or not this latter amount is actually realized. An under-realization of recoveries without a corresponding decrease in spending would have the same effect on the CRF operating result as an equivalent shortfall in anticipated government revenue.

Section 23(3)(c) of the FAA also provides that excess recoveries (amounts earned over and above those estimated) may be used for additional expenses. Prior approval of Treasury Board is not required, unless otherwise directed. This incremental spending would have no impact on the CRF operating result since the incremental recoveries would offset the incremental spending with no change to net expense.

There are a number of checks and balances to the use of recoveries to understate net expense. The *Balanced Budget and Ministerial Accountability Act* requires ministers to meet their net expense targets as outlined in Schedule F. As well, section 27(1)(a) of the FAA authorizes Treasury Board to restrict spending under any appropriation – voted or statutory.

Recoveries in the Estimates

Recoveries are disclosed in each special office, ministry, or other appropriation section of the Estimates in two places: the Summary by Core Business or the Summary by Vote; and the Group Account Classification Summary.

There are two forms of recoveries:

Internal Recoveries — represent transfers within the CRF and generally include inter-ministry chargebacks for costs budgeted centrally in government for the provision of certain goods and services that are recovered from areas elsewhere in government that consume and/or use those goods and services. Employee benefits, workplace technology services, legal services, accommodation and real estate services, alternate service delivery services, postal services, King's Printer services, and Provincial Treasury banking charges are examples of internal recoveries.

External Recoveries — represent recoveries from entities outside of the CRF, including costs and amounts recovered from government corporations, education and health sector organizations, other levels of government, non-government organizations, individuals, and businesses. External recoveries also include sinking fund interest earnings, an offset for commissions paid for the collection of government revenues and accounts, and increases in provisions for, or the write-off of, uncollectible revenue-related accounts. An example of a major external recovery is interest costs relating to funds borrowed by government and re-loaned to public bodies.

The expense disclosures in the Summary by Core Business and the Summary by Vote only add External Recoveries to Net Expense to arrive at Gross Expense (i.e., the FAA section 23(3) spending authority), as the spending related to Internal Recoveries may be restricted by Treasury Board – in effect, limiting their inherent spending authority. \$1,000 placeholders are used when a reasonable estimate is not available. Details on internal and external recoveries by vote are provided in the Supplement to the Estimates.

Financing Transactions

The government capitalizes a number of costs in its financial statements in accordance with generally accepted accounting principles (GAAP). In addition, the government requires spending authority for disbursements which are made for purposes such as loans, investments and other requirements, and revenue collected for, and transferred to, other entities. The annual amounts are shown in each special office or ministry section of the Estimates and are summarized in schedules to the Estimates. These costs are not included in their operating budgets; rather, each schedule is voted as one amount in the *Supply Act*.

Capital Expenditures – Schedule C

These expenditures reflect the acquisition cost of tangible capital assets. While the initial expenditure is not part of operating expenses, the amortization of the cost of tangible capital assets is included in operating budgets. Schedule C summarizes core government capital acquisitions that are voted on by the Legislative Assembly and the total estimated cost of capital acquisitions for all taxpayer-supported organizations.

Loans, Investments and Other Requirements – Schedule D

The government disburses funds from the General Fund of the CRF for a variety of purposes related to ministry operations, including student loans, land development, timber inventory acquisition, land tax deferment program costs, international fuel tax agreement payments, and returns of deposits. Receipts represent recoveries of these amounts plus loan repayments, deposits accepted by government, and interest on deposits.

Revenue Collected for, and Transferred to, Other Entities – Schedule E

The government has dedicated certain revenue sources to specific programs or entities. The government collects the revenue on behalf of programs or entities and remits it to them. The total estimated disbursements set out in Schedule E are included in the *Supply Act*. Actual disbursements may vary depending on the amount of receipts in each program area and may exceed the estimated amounts to the extent authorized by other appropriations.

ESTIMATES ACCOUNTING POLICIES AND PRESENTATION CHANGES

Estimates Accounting Policies

1. **Basis of Accounting** — The Estimated Statement of Financial Position and the Estimated Statement of Operations in the 2026/27 *Estimates* are prepared in accordance with generally accepted accounting principles (GAAP) for senior governments as required by the *Budget Transparency and Accountability Act* (BTAA) and as recommended by the independent Public Sector Accounting Board of the Chartered Professional Accountants of Canada. Details on the significant accounting policies that form government's basis of accounting can be found in Note 1 of the 2024/25 *Public Accounts* on the Ministry of Finance website at: <https://www2.gov.bc.ca/gov/content/governments/finances/public-accounts>.
2. **Reporting Entity** — The government reporting entity includes organizations that meet the criteria of control by the Province as established under GAAP. This includes the Consolidated Revenue Fund, service delivery agencies, government partnerships, and self-supported Crown corporations. Service delivery agencies include school districts, post-secondary institutions, health authorities and hospital societies, and taxpayer-supported Crown corporations and agencies.
3. **Consolidation** — The 2026/27 *Estimates* fully consolidate the Consolidated Revenue Fund with the individual assets, liabilities, revenues, and expenses of service delivery agencies on a line-by-line basis. Government's interests in government partnerships are reported on a proportional consolidation basis. Self-supported Crown corporation results are consolidated using the modified equity basis, which reports net assets as an investment and net income/loss as revenue.

Significant Presentation Changes in the 2026/27 *Estimates*

For comparative purposes, the 2025/26 *Estimates* and Updated Forecast amounts have been restated to be consistent with the 2026/27 *Estimates* presentation. These restatements reflect the government reorganizations since the 2025/26 *Estimates* were presented to the Legislative Assembly on March 4, 2025; incorporate a number of inter-ministry transfers and/or changes; and adjust expenses for presentation changes.

A reconciliation of the restated General Fund operating expenses and capital expenditures for transfers between ministries is presented in Schedule A.

This account was established as a special account under the *Special Accounts Appropriation and Control Act* in 2005 and replaces the Crop Insurance Fund created by a regulation under the *Insurance for Crops Act*. Production Insurance is an insurance scheme that stabilizes farm income by minimizing, at an individual level, the detrimental economic effects of losses due to uncontrollable natural perils. The purpose of this account is to receive premiums from the federal government, the Province, producers, and indemnity and other payments through reinsurance. This account also earns interest on accumulated funds. Expenses include indemnification payments to producers, reinsurance premiums to third parties, and any third-party costs of adjustments. Costs may be recovered from external organizations for reinsurance proceeds.

CLIMATE ACTION

Voted Appropriation

Climate Action.....	18,710	17,159
---------------------	--------	--------

Voted Appropriation Description: This sub-vote provides for support for the activities required to meet the province's climate action targets under the *Climate Change Accountability Act*, along with British Columbia's climate policies, the requirements under the *Greenhouse Gas Industrial Reporting and Control Act*, and for adapting to the impacts of climate change. This includes leading engagement processes across ministries, other governments, a diverse range of stakeholders, and the general public. Activities include developing and leading the Province's climate action strategy; research and policy development on climate action measures; education and communication on impacts of climate change; advising and supporting Executive Council and its committees on matters of climate action and clean energy; the evaluation, management, and delivery of cross-government initiatives; and developing greenhouse gas requirements for industry, standardized offsets program, Carbon Neutral Government, and all related legislation and regulations. This sub-vote also provides for policy, planning, coordination and operational support, consultations, outreach, partnerships, education, research, and the procurement of carbon offsets. Costs may be recovered from special accounts, ministries, other entities within government, other levels of government, organizations, and individuals for activities described within this sub-vote.

CLEANBC PROGRAM FOR INDUSTRY AND BC-OUTPUT BASED PRICING SYSTEM

Voted Appropriation

CleanBC Program for Industry and BC-Output Based Pricing System.....	4,151	6,514
--	-------	-------

Voted Appropriation Description: This sub-vote provides for the administration and implementation of carbon pricing programs that improve the competitiveness of large industrial emitters operating within British Columbia, supports projects that identify or reduce greenhouse gas emissions from large industrial emitters, and incentivizes large industrial emitters to identify or reduce emissions. Costs may be recovered from ministries, other entities within government, other levels of government, organizations, and individuals for activities described within this sub-vote.

ENERGY DECARBONIZATION

Voted Appropriation

Energy Decarbonization.....	36,978	36,415
-----------------------------	--------	--------

Voted Appropriation Description: This sub-vote provides for the development of policies and programs to support province-wide energy efficiency and clean fuel-switching measures and programs, alternative energy resource development, and the advancement of leading-edge energy technologies. This sub-vote also provides for legislative and regulatory initiatives to increase the adoption of zero emission vehicles; reduce the carbon intensity of transportation fuels; expand the production and use of renewable fuels; and set minimum energy efficiency standards. This sub-vote supports the provision of policy advice or direction to electrical and gas utilities, the private sector, Indigenous communities, and local governments regarding investment in new clean energy resources and demand-side measures. This sub-vote also provides support for strategic and operational management of funding to support reconciliation initiatives and negotiations for the First Nations Clean Energy Business Fund special account. Costs may be recovered from ministries, Crown agencies, other levels of government, and parties external to government for activities described within this sub-vote.

VOTE 24 — MINISTRY OPERATIONS

This vote provides for the programs, operations, and other activities described in the voted appropriations under the following core businesses: Environmental Protection, Conservation and Recreation Division, and Executive and Support Services.

ENVIRONMENTAL PROTECTION

Voted Appropriation

Environmental Protection.....	30,556	30,547
-------------------------------	--------	--------

Voted Appropriation Description: This sub-vote provides for clean, healthy, and safe water, land, and air for all living things; administering the *Sustainable Environment Fund Act*; setting emission and discharge standards; monitoring and reporting on ambient air and water quality; reducing and removing contaminating toxins and waste; managing pesticide use; responding to high-risk environmental emergencies; and administering extended producer responsibility programs. This sub-vote also provides for the provision of laboratory services to ministry-related vote activities, and to other public and private sector entities on a cost recovery basis. Activities also include the acquisition, collection, analysis, interpretation, inventorying, and reporting of data and activities related to emissions and discharges into the environment. Transfers are provided for activities concerned with protecting and managing the environment. Eligible costs are recovered from the Sustainable Environment Fund. Costs may also be recovered from special accounts, ministries, other entities within government, other levels of government, organizations, and individuals for activities described within this sub-vote.

CONSERVATION AND RECREATION DIVISION

Voted Appropriation

Conservation and Recreation Division.....	98,936	93,018
---	--------	--------

Voted Appropriation Description: This sub-vote provides for the planning and protection of natural spaces, including provincial parks and protected areas and recreation sites and trails, as well as natural resource law enforcement and public safety services related to human-wildlife conflicts, regulated activities, and emergency management. This sub-vote provides for acquisition, planning, management, administration, and utilization of areas for recreation and conservation. This includes the planning, protection, inventory, maintenance, and restoration of terrestrial and aquatic ecosystems in BC Parks and protected areas, recreation sites and trails, and reconciliation efforts with Indigenous Peoples through joint stewardship, cultural acknowledgement, and other government-to-government partnership activities; wildfire planning, prevention, and awareness; initiation of compliance and enforcement activities; provision of commercial and non-commercial recreational opportunities; development and maintenance of provincial park and recreation site facilities supporting public use of the front country, back country, and marine areas; promotion and management of recreation services; monitoring and reporting on park attendance, visitor satisfaction, and land status and condition; provision of information, marketing, education, community engagement, volunteers, and stewardship activities; promotion of use and awareness of the protected areas system; and fundraising from external sources to support program delivery. Transfers are provided for stewardship, information and education, and management and administration of parks and protected areas by third parties. This sub-vote also provides for activities related to upholding British Columbia and Canada laws and supporting the continuous improvement in compliance with requirements established by government to protect the environment, the province's natural resources, and related human health and safety, including education and promotion, inspections, investigations, and enforcement of standards for the protection of fish, wildlife, habitat, and the environment. This sub-vote also provides for monitoring, compliance, and enforcement of environmental standards for natural resources management for government and revenue policies; managing public safety issues related to emergency management, regulated activities, human/wildlife conflicts, and predator/livestock issues; combating natural resources crimes; and enforcing rules governing the use of forest service recreation sites, trails, and fire bans. This sub-vote also provides for legislation and policy development and implementation. Costs may be recovered from special accounts, ministries, other entities within government, other levels of government, agencies, organizations, licensees, and individuals for activities described within this sub-vote.

ENVIRONMENTAL ASSESSMENT OFFICE

Voted Appropriation

Environmental Assessment Office.....	16,781	16,781
--------------------------------------	--------	---------------

Voted Appropriation Description: This sub-vote provides for the administration and continuous improvement of an objective, publicly accessible, and neutrally administered process under the *Environmental Assessment Act*. The process assesses environmental, economic, social, cultural, and health effects of major projects proposed in British Columbia; identifies means for preventing or reducing adverse effects; and regulates certified projects to ensure compliance with legally-binding project conditions. The Environmental Assessment Office promotes sustainability and supports reconciliation with Indigenous Peoples in British Columbia. The Environmental Assessment Office also facilitates public participation in environmental assessments and coordinates assessments with other governments, including Indigenous nations, and with other provincial ministries and agencies. Where projects have proceeded successfully through the process, the Environmental Assessment Office leads compliance and effectiveness monitoring, audit, and management, often in collaboration with other government agencies. Costs may be recovered from ministries, other entities within government, other levels of government, organizations, businesses, and individuals for activities described within this sub-vote.

SPECIAL ACCOUNTS¹

(\$000)

Estimates
2025/26Estimates
2026/27**BC TIMBER SALES ACCOUNT**

This account was originally established in 1988 as the Small Business Forest Enterprise Account and became the BC Timber Sales Account in 2003 through an amendment to section 109 of the *Forest Act*. The purpose of the account is to identify all revenues for BC Timber Sales and to provide an ongoing source of funds to defray the costs of the program. Revenue is collected from the following sources: upset stumpage; bonus stumpage; waste billings; annual fees and billings (annual rent, trespass charges, extension fees, forfeited deposits, and scaling fees), and the proceeds from the sale of hard or soft assets incidental to the operation of the program; and sales of logs. Expenditures are for preparing forest development plans and logging plans; assessments required to formulate these plans for timber sales licences; costs of meeting requirements of applicable legislation; construction and maintenance of logging roads, bridges, and log dumps; costs of developing timber sales for auction; protection of forests; administration; costs of selling timber and logs; the costs associated with BC Timber Sales disposition agreements entered into under the *Forest Act*; and other forest management requirements incidental to the program, including certification and safety initiatives. Costs of supplies and services may be recovered from ministries, other levels of government, agencies, organizations, and individuals. Revenue in excess of current expenditures and outstanding obligations may be transferred to the General Fund as directed by Treasury Board. Disbursements reflect capitalized costs incurred for development of timber for sale in future years. These costs are recovered from future sales revenue.

VOTE 34 — MINISTRY OPERATIONS

This vote provides for the programs, operations, and other activities described in the voted appropriations under the following core businesses: Government to Government and Community Relations Division; Policy, Intergovernmental Relations and Legislation Division; Programs and Partnerships Division; and Executive and Support Services.

GOVERNMENT TO GOVERNMENT AND COMMUNITY RELATIONS DIVISION

Voted Appropriation

Government to Government and Community Relations Division.....	18,160	16,987
--	--------	--------

Voted Appropriation Description: This sub-vote provides for the leadership of government's role in building new, lasting, and transformative relationships with Indigenous Peoples through the negotiation and implementation of treaties, incremental treaty agreements, comprehensive reconciliation agreements, revenue-sharing agreements, and other agreements with First Nations, Indigenous Peoples and organizations, and the federal government. In addition, this sub-vote supports negotiation policy development, including emerging policy directives that strive to achieve rights, recognition, and reconciliation outcomes. This sub-vote also provides for cross-government coordination of engagements with First Nations and Indigenous Peoples, including development of government-to-government resource management protocols, cross-government coordination of First Nations and Indigenous Peoples consultation and accommodation, and treaty implementation and treaty-related measures. This sub-vote also provides for ongoing engagement with local governments and regional districts regarding negotiations, agreement implementation, and relationship building priorities with Indigenous communities in regions across the province. This sub-vote also provides for the operation of Victoria-based and regional offices that execute negotiations, agreement implementation, operations, and relationship management approaches. Regional offices support agencies across government at the regional level to coordinate engagements with First Nations and Indigenous Peoples, including providing day-to-day advice on relationships with First Nations and Indigenous Peoples, negotiation mandate development, negotiation leadership and support, and implementation to ensure that provincial government obligations are met. Costs may be recovered from ministries, other entities within government, and parties external to government for activities described within this sub-vote.

POLICY, INTERGOVERNMENTAL RELATIONS AND LEGISLATION DIVISION

Voted Appropriation

Policy, Intergovernmental Relations and Legislation Division.....	14,805	13,887
---	--------	--------

Voted Appropriation Description: This sub-vote provides for the support and enhancement of the government's approach to reconciliation with First Nations and Indigenous Peoples through negotiations both inside and outside the treaty process considered strategically important to furthering the socio-cultural and socio-economic priorities of government. This sub-vote also provides for leadership of government's negotiations with the federal government to cost-share treaties, incremental treaty agreements, comprehensive reconciliation agreements, and other arrangements. This sub-vote also supports community support and emergency management; provides for activities supporting the closing and bringing into effect of agreements with First Nations, such as the development of legislation and the closing and implementation of agreements under the British Columbia Treaty Commission process; supports other agencies across government to implement treaties and other agreements and ensure provincial obligations within treaties and other agreements are addressed; and facilitates engagement and negotiation among First Nations, Indigenous communities and organizations, provincial ministries, and key stakeholders with the aim of accommodating First Nation and Indigenous interests and promoting collaboration and coordination on Indigenous issues across sectors and orders of government. This sub-vote also provides for leadership in fiscal policy development, tripartite fiscal negotiations (including revenue-sharing agreements with First Nations), and development of financial and specific mandates for treaty negotiations. This sub-vote also provides support for strategic and operational management of funding to support reconciliation initiatives and negotiations, including the First Citizens Fund, the Long-Term BC First Nations Gaming Revenue Sharing and Financial Agreement, and related transfers. This sub-vote also provides support for the policy development of a new fiscal framework and resource revenue-sharing with Indigenous Peoples in British Columbia. Costs may be recovered from ministries, other entities within government, and parties external to government for activities described within this sub-vote.

PROGRAMS AND PARTNERSHIPS DIVISION

Voted Appropriation

Programs and Partnerships Division.....	29,229	28,172
---	--------	--------

Voted Appropriation Description: This sub-vote supports partnerships with Indigenous organizations, relationship building, cultural and language initiatives, community development and innovation, and support to Indigenous leadership and advisory bodies. This sub-vote also provides for initiatives to address the socio-economic gaps between Indigenous Peoples and other British Columbians, including the identification of opportunities, removal of barriers, cross-ministry coordination of resources and services provided to Indigenous Peoples, and support for data development and reporting out on progress. This sub-vote provides for work across government to guide the adoption of the United Nations Declaration on the Rights of Indigenous Peoples (UN Declaration), and the Truth and Reconciliation Commission of Canada: Calls to Action, and to support the implementation of the Tsilhqot'in Supreme Court Decision and learnings from other relevant case law. This sub-vote provides for the identification and pursuit of key cross-government linkages to support alignment, collaboration and implementation of the *Declaration on the Rights of Indigenous Peoples Act*, including the development of strategic policy tools and resources for the public service. This sub-vote also provides for the implementation of the *Declaration on the Rights of Indigenous Peoples Act*, and provides for the engagement processes towards, and the development of, the government's reconciliation vision and leadership of the necessary transformation associated with this vision. This sub-vote also provides for collaboration with the federal government and Indigenous governments and organizations; and working with internal and external partners and stakeholders to identify and help drive economic growth and opportunities for Indigenous peoples, including support for urban Indigenous peoples. This sub-vote provides for strategic advice and coordination to help drive economic growth and opportunities in Indigenous communities that support meaningful advancement of self-determination outcomes. This sub-vote provides for development, cross-ministry coordination, implementation, and monitoring of Indigenous, external stakeholder, and intergovernmental engagement. Costs may be recovered from ministries, other entities within government, and parties external to government for activities described within this sub-vote.

2026/27**CIVIL FORFEITURE ACCOUNT**

This account was established by the *Civil Forfeiture Act* in 2005. The purpose of the Act is to suppress unlawful activities by removing the associated economic incentive and to fund crime prevention, crime remediation, and victim compensation initiatives. The account is established to receive the liquidated value of forfeited assets and to distribute the net revenue in the form of grants. The net revenue represents the excess of recoveries over expenses in a given fiscal year. Expenses are limited to those permitted within the scope of the Act and include administration of the Act. Costs may be recovered from proceeds from judgments or settlements of concluded legal proceedings.

2026/27**CRIMINAL ASSET MANAGEMENT FUND**

The Forfeited Crime Proceeds Fund account was established by the *Special Accounts Appropriation and Control Act* in 1988, as amended by the *Attorney General Amendment Act* in 1989. This account was continued in 2012, under the name Criminal Asset Management Fund, by the *Criminal Asset Management Act*. The purpose of this account is to use the proceeds that government obtains from criminal forfeitures and certain fines for certain criminal justice purposes. Revenue represents money received by government from proceeds of crime provided by certain other governments, money paid as a fine under a provision of the *Criminal Code* of Canada or under similar legislation, and money forfeited under certain sections of the *Criminal Code* of Canada. Revenue also represents money realized from the disposition of forfeited property governed by the Act and other money, interest, and income provided for in the Act. Expenses are for compensation of eligible victims, crime prevention and remediation, administration of the Act, and other prescribed purposes. Administrative costs may be funded through the ministry's voted appropriations.

2026/27**BC ARTS AND CULTURE ENDOWMENT SPECIAL ACCOUNT**

This account was established as a special account under the *Special Accounts Appropriation and Control Act* in 2008. This account contains two sub-accounts, the BC150 Cultural Fund and the Arts Legacy Fund. The BC150 Cultural Fund sub-account operates as an endowment fund with a restricted balance of \$150 million which is not permitted to be spent. This sub-account will provide support for arts and culture in British Columbia as recommended by the British Columbia Arts Council. The Arts Legacy Fund sub-account also operates as an endowment fund with a restricted balance of \$20 million which is not permitted to be spent. Expenses consist of government grants to organizations and artists to support the creation, development, or presentation of works of art at events or venues the minister considers will provide significant exposure to those works of art. Interest or earnings paid on the sub-accounts will be credited to the sub-accounts as revenue.

CROWN LAND SPECIAL ACCOUNT

This account was originally created as a fund by authority of section 7 of the *Department of Housing Act* in 1973, was replaced by the Crown Land Fund in 1979 pursuant to the *Ministry of Lands, Parks and Housing Act*, was changed to a special account under the *Special Appropriations Act* in 1982, and provisions were modified under the *Special Accounts Appropriation and Control Act* in 1988. Revenues include land sales, exchanges, tenures, royalties, interest, rental income, and fees. Costs of development include costs directly associated with the acquisition and development of Crown land for sale or tenure and costs incurred for the accommodation of First Nation interests directly related to the sale in fee simple, rental, lease, or exchange of Crown lands. Expenses include costs for Crown land clean-up and servicing. This special account also provides Free Crown Grants and Nominal Rent Tenures of land at less than fair market value. In accordance with generally accepted accounting principles, upon disposition Free Crown Grants are expensed at net book value if no consideration is received or are expensed at fair market value if a consideration is received, and Nominal Rent Tenures are expensed at fair market value. As Crown land is shown on the balance sheet as the nominal value of \$1, the revaluation of Crown land to fair market value is shown as a recovery against the expenses. Financing transaction receipts represent repayment of outstanding loans and deposits made on pending sales.

NOTES

¹ A Special Account is an account in the General Fund where the authorization to spend money from the account is located in an Act other than the *Supply Act*.

² The Spending Authority Available at the Beginning of the Fiscal Year 2025/26 is based on the 2024/25 *Public Accounts*. The Projected Spending Authority Available at the End of the Fiscal Year represents the cash and temporary investments projected to be available at the end of each fiscal year.

³ Expenses and recoveries reflect the net difference between the fair market value and book value of Crown land granted free or leased for a nominal fee.

⁴ The amounts shown reflect the projected value of free Crown grants to be issued on behalf of the individual ministries shown, and the anticipated value of nominal rent tenures to be renewed in the 2026/27 fiscal year. A Contingency amount has been added to reflect potential unanticipated requests.

(Minister of Finance)

This vote provides for the programs, operations, and other activities described in the voted appropriations under the following core businesses: Cost of Borrowing for Government Operating and Capital Funding, Cost of Borrowing for Relending to Government Bodies, Cost of Financial Agreements Entered into on Behalf of Government Bodies, and Cost of Warehouse Borrowing Program.

COST OF BORROWING FOR GOVERNMENT OPERATING AND CAPITAL FUNDING (NET OF RECOVERIES)

Voted Appropriation

Cost of Borrowing for Government Operating and Capital Funding.....	2,762,117	3,797,746
---	-----------	-----------

Voted Appropriation Description: This sub-vote provides for interest and all other costs, expenses, charges, and fees associated with debt arising from borrowings or other credit arrangements. These include amounts required to be paid in respect of related financial agreements (such as interest rate and currency swaps and forward rate agreements) and commodity derivatives, incurred or assumed by the government for operating purposes or capital funding purposes. This sub-vote also provides for the cost of cash-flow management of the Consolidated Revenue Fund, payment services resulting from borrowing activities, costs associated with business continuation planning in relation to debt management and banking and cash management functions, and management and administration of the rights and obligations of the government under agreements and other arrangements relating to government mortgages and other interests and investments. Recoveries from the use of financial agreements (such as interest rate and currency swaps and forward rate agreements) and commodity derivatives, and revenue earned from funds invested in matched book programs are offset against the related expenditure.

COST OF BORROWING FOR RELENDING TO GOVERNMENT BODIES (NET OF RECOVERIES)

Voted Appropriation

Cost of Borrowing for Relending to Government Bodies.....	1	1
---	---	---

Voted Appropriation Description: This sub-vote provides for interest and all other costs, expenses, charges, and fees associated with debt arising from borrowings or other credit arrangements, including amounts required to be paid in respect of related financial agreements (such as interest rate and currency swaps and forward rate agreements) incurred or assumed by the government for the purposes of the Fiscal Agency Loan program. Recoveries from the use of financial agreements (such as interest rate and currency swaps and forward rate agreements) are offset against the related expenditure and the remaining costs are fully recovered from government bodies or other authorized organizations.

COST OF FINANCIAL AGREEMENTS ENTERED INTO ON BEHALF OF GOVERNMENT BODIES (NET OF RECOVERIES)

COST OF WAREHOUSE BORROWING PROGRAM (NET OF RECOVERIES)

Voted Appropriation

Cost of Warehouse Borrowing Program..... 1 1

Voted Appropriation Description: This sub-vote provides for interest and all other costs, expenses, charges, and fees associated with debt issued in advance of requirements, including amounts required to be paid in respect of related financial agreements (such as interest rate and currency swaps and forward rate agreements). The debt is held in the program prior to allocation to a government purpose or for loans to a government body or other authorized organization. Interest and other earnings accrued from the investment of proceeds of borrowings while warehoused offset interest and other costs associated with those borrowings. Recoveries from the use of financial agreements (such as interest rate and currency swaps and forward rate agreements) are offset against the related interest expenditure.

2026/27VOTE 48 — CONTINGENCIES
(Minister of Finance)

This vote provides for additional funding for items budgeted in other votes to accommodate the financial consequences of unanticipated and contingent events. Unanticipated events include developments during the year that could not be reasonably anticipated when the budget was prepared. Contingent events include developments that could be anticipated but not with enough certainty to make a reasonable estimate of budget costs, or where final costs are dependent on a pending decision by government or another party. This vote also provides for ex gratia payments and the funding of new programs initiated during the fiscal year. Costs may be recovered from the federal government and other parties external to the provincial government for activities funded by this vote.

VOTE 49 — CAPITAL FUNDING
(Minister of Housing and Municipal Affairs; Minister of Infrastructure;
Minister of Tourism, Arts, Culture and Sport; and Minister of Finance)

This vote provides for government transfers to government organizations as defined in the *Budget Transparency and Accountability Act* for the funding of capital expenditures, including the costs of land acquisition; new facility acquisition and construction; and existing facility renovation, improvement, and maintenance. Government transfers may only be made under this vote by the Minister of Housing and Municipal Affairs; the Minister of Infrastructure; and the Minister of Tourism, Arts, Culture and Sport to government organizations whose capital activities and expenditures fall within the respective portfolios of those ministers. The Minister of Finance may make government transfers under this vote to any government organization. The amount of this vote is allocated among responsible ministers as set out below. Treasury Board, by directive, may reallocate the amounts among responsible ministers to meet government priorities. Reallocation of these amounts may constitute a revision to the expected results for the ministers impacted, which must be made public within 90 days in accordance with the *Balanced Budget and Ministerial Accountability Act*. In addition to these allocations, the Minister of Finance has statutory authority to make capital grants to any government organization, and other votes may also provide for transfers to government organizations for the funding of capital expenditures. Costs may be recovered from other levels of government contributing to capital expenditures for which transfers may be made under this vote.

¹A Special Account is an account in the General Fund where the authorization to spend money from the account is located in an Act other than the *Supply Act*.²Transfers from (to) the General Fund consist of changes in statutory spending authority.³Working Capital Adjustments include those adjustments that would change the cash balance of the Special Account. This may include amortization expense, changes in accounts receivable and payable, and the recognition of deferred revenues.⁴Transfers from Voted Appropriations to Special Accounts are eliminated to establish the amount of special account expenses that require statutory appropriations.This net amount of special account expense is then deducted from total expenses in the determination of the *Supply Act* requirements.

SUMMARY OF MINISTERIAL ACCOUNTABILITY FOR OPERATING EXPENSES
 (for the Fiscal Year Ending March 31, 2027)
 (\$000)

Schedule F

Under section 3 of the *Balanced Budget and Ministerial Accountability Act* (BBMAA), each member of the Executive Council has 10 per cent of their salary held back, and restoration of a minister's holdback is contingent on that minister achieving individual goals as set out in section 5. For each minister with responsibility for operating expenses arising from a voted appropriation as accounted for in the Consolidated Revenue Fund, section 5(1) stipulates actual results for the year must not exceed the estimated amounts for that fiscal year.

In the table below, the "Minister Responsible" column lists the ministers with BBMAA section 5(1) assigned responsibilities. The "Voted Appropriations in the 2026/27 Estimates" column shows the voted appropriations for which those ministers are responsible. The "Voted Appropriation Operating Expenses (net)" and "2026/27 Estimated Amount" columns show the dollar amounts of operating expenses (net) and estimated amounts allocated to ministers in the 2026/27 Estimates.

ESTIMATED TAXPAYER-SUPPORTED STAFF UTILIZATION¹
 (for the Fiscal Year Ending March 31, 2027)
 (FTEs)

Schedule I

Estimates 2025/26	Updated Forecast ² 2025/26		Estimates 2026/27
38,900	37,500	Ministries and special offices (General Fund)	37,700
9,486	10,155	Service delivery agencies ³	9,369
48,386	47,655	Total taxpayer-supported staff utilization	47,069

¹ Full-time equivalents (FTEs), a measure of staff employment, are calculated by dividing the total hours of employment paid for in a given period by the number of hours an individual full-time person would normally work in that period. This does not equate to the physical number of employees. For example, two half-time employees would equal one FTE; or alternatively three FTEs may represent two full-time employees who have worked sufficient overtime hours to equal an additional FTE.

² 2025/26 Forecast accounts for the estimated impact of hiring restrictions and job action.

³ Service delivery agency FTE amounts do not include education and health sector organizations (SUCH sector) staff employment, per requirements of the *Budget Transparency and Accountability Act*.

EXPLANATORY NOTES ON THE GROUP ACCOUNT CLASSIFICATIONS

OPERATING EXPENSES

Operating expenses for special offices, ministries, and other appropriations are presented in the Estimates based on a group account classification system. Each group account represents a broad category of expenses and is composed of specific components (standard object of expense). A supplementary publication, Supplement to the Estimates, provides details for each special office, ministry, and other appropriation at the standard object of expense level. Both publications can be found on the Government of British Columbia's budget website at <https://www.bcbudget.gov.bc.ca/>. The group account classification system is described below in more detail.

Salaries and Benefits

- *Base Salaries* – includes the cost of base salaries, overtime pay, and lump sum payments for all permanent and temporary direct employees of the government.
- *Supplementary Salary Costs* – includes the cost of extra pay for certain types of work, such as shift differential, premiums, and allowances.
- *Employee Benefits* – includes the cost of employer contributions to employee benefit plans, pensions, and other expenses related to employee salaries. Other benefits paid by the employer, such as relocation and transfer expenses, are also included.
- *Legislative Salaries and Indemnities* – includes the cost of the annual Members of the Legislative Assembly (MLA) indemnity and supplementary salaries as authorized under section 4 of the *Members' Remuneration and Pensions Act*. Salaries for the officers of the Legislature are also included.

Operating Costs

- *Boards, Commissions and Courts – Fees and Expenses* – includes fees paid to board and commission members, juries and witnesses, and related travel and out-of-pocket expenses.
- *Public Servant Travel* – includes travel expenses of direct government employees and officials on government business, including prescribed allowances.
- *Centralized Management Support Services* – includes central agency charges to ministries for services, such as legal services.
- *Professional Services* – includes fees and expenses for professional services rendered directly to government for the provision of goods and services in the delivery of government programs, the provision of goods or services that are required by statute or legislation and are billed directly to the government, and the provision of goods or services that will assist in the development of policy and/or programs or improve/change the delivery of programs, such as management consulting services.
- *Information Systems – Operating* – includes all contract fees and costs related to data, voice, image, and text processing operations and services, such as data and word processing, data communications charges, supplies, repairs, maintenance, and short-term rentals of information processing equipment.
- *Office and Business Expenses* – includes supplies and services required for the operation of offices.
- *Informational Advertising and Publications* – includes costs associated with non-statutory advertising and general publications.
- *Statutory Advertising and Publications* – includes costs associated with special notices and publications required by statute and regulations.
- *Utilities, Materials and Supplies* – includes the cost of services, such as the supply of water and electricity, materials, and supplies required for normal operation of government services and food for institutions.
- *Operating Equipment and Vehicles* – includes the costs associated with the repair and maintenance of government vehicles and operating machinery and equipment.
- *Non-Capital Roads and Bridges* – includes highway costs recovered from the BC Transportation Financing Authority, costs for minor enhancements to capitalized infrastructure, as well as non-highway road costs.
- *Amortization* – includes the amortization of the cost of capital assets and prepaid capital advances over their useful lives.
- *Building Occupancy Charges* – includes payments to the private sector for the rental and/or maintenance of buildings and office accommodation, including tenant improvements that do not meet the criteria for capitalization.

EXPLANATORY NOTES ON THE GROUP ACCOUNT CLASSIFICATIONS (Continued)

Government Transfers

- *Transfers – Grants* – includes payments to individuals, businesses, non-profit associations, and other entities which may include stipulations as to the use of the funds and which are not entitlements or shared cost arrangements.
- *Transfers – Entitlements* – includes payments to individuals, businesses, and other entities where eligible recipients must be paid under statute or regulation once they meet all eligibility criteria, if any, outlined in the statute or regulation.
- *Transfers – Shared Cost Arrangements* – includes payments that are reimbursements to individuals, businesses, and other entities under the terms of a contract or agreement.

Other Expenses

- *Transfers Between Votes and Special Accounts* – includes transfers (payments) between a vote and a special account.
- *Interest on the Public Debt* – includes only interest payments on the direct provincial debt borrowed for government purposes.
- *Other Expenses* – includes expenses, such as financing costs, valuation allowances, and other expenses, which cannot be reasonably allocated to another standard object of expense.

Internal Recoveries

- *Recoveries Between Votes and Special Accounts* – includes recoveries between a vote and a special account.
- *Recoveries Within the Consolidated Revenue Fund* – includes recoveries for the use of equipment or the provision of goods and services between ministries of the provincial government.

External Recoveries

- *Recoveries Within the Government Reporting Entity* – includes costs and amounts recovered from government corporations, organizations, and agencies; the offset for commissions paid for the collection of government revenues and accounts; and the write-off of uncollectible revenue-related accounts.
- *Recoveries External to the Government Reporting Entity* – includes costs and amounts recovered from other governments and non-government organizations.

CAPITAL EXPENDITURES

Capital expenditures for special offices, ministries, and other appropriations are presented in the Estimates under Capital Expenditures and in Schedule C. The Supplement to the Estimates provides details for capital expenditures by each special office, ministry, and other appropriation based on the category of the assets acquired. The categorization of assets is described below.

- *Land* – includes the purchased or acquired value for parks and other recreation land, land directly associated with capitalized infrastructure (buildings, ferries, and bridges), but does not include land held for resale.
- *Land Improvements* – includes the capital costs for improvements to dams and water management systems and recreation areas.
- *Buildings* – includes the purchase, construction, or major improvement of buildings owned by the Consolidated Revenue Fund.
- *Specialized Equipment* – includes the purchase or capital lease cost of heavy equipment, such as tractors and trailers, as well as telecommunications relay towers and switching equipment.
- *Office Furniture and Equipment* – includes the cost or capital lease cost of office furniture and equipment.
- *Vehicles* – includes the purchase or capital lease cost of passenger, light truck, and utility vehicles.
- *Information Systems* – includes the purchase or capital lease cost of mainframe and other systems hardware, software, and related equipment.
- *Tenant Improvements* – includes the cost or capital lease cost of improvements to leased space.
- *Roads* – includes the capital costs for construction or major improvements of roads, highways, bridges, and ferries.
